

Beautiful and Simple

ReadyCurb

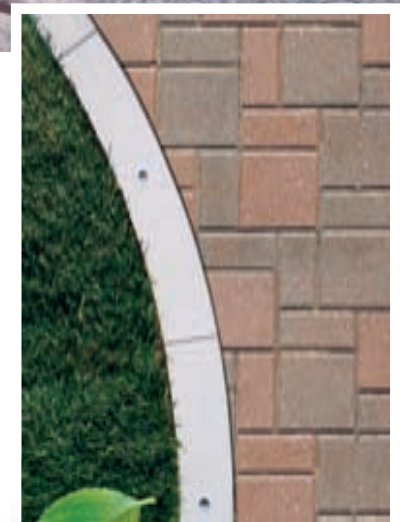

ReadyCurb is the beautiful and simple solution to complete all of your paving stone installations.

ReadyCurb has a dual function. It is an **edge restraint** for any type of paving stone installation. And the attractive limestone finished concrete unit acts as a **border** which compliments any paving stone style, color, texture and pattern design.

The Interlocking Concrete Pavement Institute specifies a unit similar to **ReadyCurb** be used for the edge restraint of all permeable paver installations.

"1960-2010 ~ Celebrating Our Fiftieth Anniversary!"

Beautiful design, simple installation.

ReadyCurb is manufactured locally using the highest quality materials and processes allowing us to achieve unmatched strength and beauty. ReadyCurb's attractive limestone finish makes it the perfect border for every paving stone installation from formal outdoor dining spaces to casual fire pit areas and everything in between.

ReadyCurb is constructed to be as strong as it is beautiful. Each piece is reinforced with two 3/8 inch epoxy coated steel rods for increased strength and durability. It has a minimum compression strength rating of 5,000 PSI so you can be confident that ReadyCurb will give you many years of beautiful and rugged service.

ReadyCurb is available in 60, 70, and 80 mm heights making it the most compatible edge/border unit on the market today. The gentle curved and true straight units allow even the most inexperienced installer to achieve professional looking results.

Visit our showroom to see in person why ReadyCurb is the perfect choice for a beautiful and simple finish to any paving stone installation.
